

This is the car with glamorous new trim and glamorous new colour schemes. **BMC FREEWAY AUTOMATIC**

See how Borg Warner works on a wagon

This is the automatic transmission that made all the others old-fashioned. This is the automatic you can stop on steep hills and speed off again towing a caravan. This is the automatic that can be push-started.

See how Borg Warner overtakes This is the automatic with "lock-in" control that overtakes like a rocket. This is the automatic with the three-phase system that surges through the changes like silk.

See how Borg Warner pulls This is the car that never fades on a grade, with the transmission that needs next to no maintenance. This is the only car near the price (station wagon and saloon) with the world's most advanced automatic transmission.

DRIVE AUSTIN FREEWAY SIX AND AUSTIN FREEWAY STATION WAGON (WITH EXCLUSIVE BORG-WARNER AUTOMATIC) and you'll know why owners say it makes ought-to-matics of the others!
